confirms the conformity of the product

Description: Data collecting device
Type: Prodata

to the following guidelines:

EC-Guidelines:	89/336/EWG (Electromagnetical compatibility) and 73/23/EWG (Low voltage)	
Respected standards: European standard	International standard	
EN 55011: 06.1992		Product norm for radioshield.Group 1, class B (residential areas)
EN 50082-2: 03.1995		Basic norm for interference resistance.Part 2: Industrial areas
EN 61000-4-2: 1995	IEC 61000-4-2: 1995	Testing the interference resistance against discharge of statical electricity.
EN 61000-4-4: March 1996	IEC 61000-4-4: 1995	Testing the interference resistance against rapid transient electrical interferences/burst.
EN 61000-4-6: April 1997	IEC 61000-4-6: 1996	Testing the interference resistance against interference over metallic circuits, induced by high frequent fields.
EN 61010-1: 08:2002	IEC 61010-1: 2001	Safety guidelines for electrical measurement, control and laboratory devices. The device corresponds to protection class I (with protective wire connection) and is suited for the use in over voltage category III and pollution degree 2.
